

iVectorOne is a high-quality, fully managed API solution that you integrate once to seamlessly add new bedbanks and hotel suppliers, or replace existing ones

Simplify the way you connect and manage your bedbank supply

Expand your 3rd party hotel supply quickly and with minimal investment

NO NEED TO

- Integrate directly with each supplier;
- Map 3rd party content by yourself or with an external partner;
- Continually upgrade or maintain supplier's ever-changing technology;
- Stick with suppliers that are no longer suitable to you.

INSTEAD

- Integrate once using a tried and tested technology;
- Activate near-instantly new suppliers to test their capabilities;
- Easily target new geographic regions;
- Return all your agreed rates, availability and mapped content in one search;
- Direct your technology developments to customer-facing features.

iVectorOne Value Add

Choice and Control

Speed up your inventory growth while you sit back and relax

- Fast access to 90+ directly connected suppliers
- A single API integration
- Quick self-serve activation
- Test out new suppliers with minimal effort

Full Management

Reduce the costs and efforts to manage 3rd party supply

- Simplified, centralised sourcing of 3rd party content
- Fully deduplicated properties
- Continuous suppliers' updates
- Best available rate from all of your supplier agreements

Flexible & Effective Pricing

Pay as you go, only for the bookings made on the platform

- no tech set-up fee
- no maintenance fee
- no look-to-book fees
- no mapping fee

Grow your bedbank and hotel supply in a simpler way.
Sign up for a 4-steps Activation Process!

1. Sign commercial agreement and have instant access to your test environment.

2. Integrate the iVectorOne API with support from our team and our documentation.

3. Share you live supplier credentials and we'll get your account ready to go live.

4. Go Live! It's time to make reservations with your newly added suppliers.
