Universal Hotel Connectivity **API**

B2B, B2C, Call Centre, API

YOUR RESERVATION PLATFORM

iVectorOne is an easily integrated, high-quality, fully managed API solution that seamlessly connects your booking system to any source of accommodation supply – giving you control, choice and flexibility.

iVectorOne
www.ivectorone.com

One API for all your hotel supply needs

Direct Contracting

Efficient, accurate and easy to use loading system to sell and manage all products and offers: from high-volume city hotels to high-end, tailor-made resorts

Channel Managers

Connect, source, book and fulfil with your own internal bedbank, while working in the way you and the hoteliers want to

Bedbanks and Chains

Return the best prices, availability and mapped content, super-fast with a pay-as-you-go booking fee model and a self-serve, quick supplier activation approach

What iVectorOne can do for you

Combine

Mix, dedupe, prioritise own contracts and 3rd party supply

Control

Flexible application to manage all hotel sourcing channels

Grow

Fast time-to-market; no hassle of handling multiple integrations

Andras Simonfi
Head of Technology
at Imperatore Travel

'I've been working with intuitive for 10 years and I haven't seen a more complete technology product. We are expanding our channel manager connectivity to become the ultimate one-stop-shop travel solution and with the help of intuitive we'll be close to filling that gap in the Italian market.'
